HSA currently includes the 5Star Upgrade in the basic price for Edina Realty Home Warranty, therefore it is not represented as an option here.

The Edina Realty Home Warranty covers repair and/or replacement of covered systems and components. The warranty is renewable with a monthly payment plan option.

Important information:

Center Point Energy:

Cancellation: customer is responsible for full retail value of any repairs completed less any repair plan payments made during contract year.

Replacement: this is a repair plan only; if CPE determines that an item should be replaced CPE will allow the homeowner to purchase equipment through CPE but it is the homeowner's responsibility to pay for replacement.

Heat/air exclusions: CPE specifically excludes heat exchangers, condensing coil, compressor or refrigerant lines. Evaporator/A coil coverage does not include repair/replacement.

Part unavailability: CPE will specifically exclude items/brands due to unavailability of parts. There is no coverage if a part is unavailable.

Rust: CPE excludes failures due to rust.

Xcel Energy:

Cancellation: customer has the option of paying for the remaining premium or any bill assumed by the plan on behalf of the customer.

Replacement: Xcel Replacement Helper Plan – helps offset the cost of replacement by providing a flat rate payout based on the type of appliance; does not guarantee full replacement value and flat rates are not printed on the terms and conditions available.

Heat/air exclusions: Xcel specifically excludes heat exchangers, evaporator/A coil, condensing coil, compressor or refrigerant lines.

Part unavailability: Xcel will specifically exclude items/brands due to unavailability of parts. There is no coverage if a part is unavailable.

Rust: Xcel excludes failures due to rust.
