Jesse is...

RESPONSIVE – from the get-go, he returned my phone call immediately and continued to communicate actively throughout the entire selling/buying process.

KNOWLEDGEABLE – our first meeting with Jesse was informative and insightful. He is well-versed in real estate, marketing and sales.

PROFESSIONAL – he told us what HE can do for us. He never belittled others in the industry – which is refreshing in such a competitive market.

AN INCREDIBLY HARD WORKER – I am truly amazed at how hard he works. He won't quit until the job is done. (Our home sold in less than 3 days!)

## Welcome home...

Getting your home sold or purchasing a new home may sound stressful, but with my experience and approach, you'll have more trouble finding packing boxes than selling or buying (we do have some boxes you could use too so don't worry) I consider myself to be extremely fortunate, because my 'job', such as it is, simply entails doing what I love. I am continually humbled and excited when a seller or buyer contacts me to assist them with the transition to a new and exciting chapter in their life!

Jesse was absolutely unbelievable. As someone who works in customer service I know how important it is to take good care of someone-and Jesse does just that. He helped me both buy a new home, and sell my current one. He is very up front, honest and appreciative.

*When the time comes to sell or purchase a new home, I'll be sure he is the first one I call.*
